PART 52

SOLICITATION PROVISIONS AND CONTRACT CLAUSES

\* \* \* \* \*

52.217-9002 Conditions for Evaluation and Acceptance of Offers for Part Numbered Items.

As prescribed in 17.7501(b)(3), insert the following provision in negotiated acquisitions of replacement parts, components, and assemblies which are identified only by the manufacturer's name, part number, and a brief item description. The provision shall be used verbatim, except that the acronym "CLIN" may be substituted for the word "item" wherever it appears in the provision. When the provision is used, the following shall be inserted in the solicitation after each item description:

"Offer" based on:

Manufacturer's Name.....  
Part No. ....

CONDITIONS FOR EVALUATION AND ACCEPTANCE OF OFFERS FOR PART NUMBERED ITEMS (Jun 2001) - DLAD

(a)-(f) \* \* \*

(g) Failure to furnish adequate data and/or information as prescribed in paragraph (b), (c), or (e) above (when required) within a reasonable period of time will preclude consideration of the offer. The Agency will make every effort to determine, prior to award, the acceptability of the products offered which meet the dollar savings threshold shown below, and/or which have a reasonable chance to receive an award based on price offered. Generally, the Agency will not evaluate alternate offers not meeting the dollar threshold. The savings potential is based on the cost of evaluation (\$200.00 if only a local technical evaluation is involved, plus an additional \$1,200.00 for **each required** Engineering Support Activity evaluation). If the Agency determines that an evaluation cannot be completed before the expected contract award date due to urgent requirements for the item, the alternate offer will not be considered for the present procurement, but will still be evaluated for technical acceptability for future procurements for the same item. For alternate offers not evaluated, the offeror's complete technical data package will be returned.
